TO

The Secretary to Government,
Development Departments,
BANGALORE.

SIR,

With reference to your letter No.D.6224/I&C, dated 1st February 1927 calling for a copy of this Office letter No.G.323, dated 2nd October 1926 regarding the grant of conveyance allowance to Mr.B.G.A. Mudaliar, I have the honour to forward the same herewith together with a copy of the representation from Mr. B.G.A. Mudaliar in the matter.

I have the honour to be,
Sir,
Your most obedient servant,

C Ranganatha Rao Saheb

Offg. Director.

MSR.

Copy of letter No.G.323, dated 2nd October 1926, from the Director of Industries and Commerce in Mysore, Banglore, to the Secretary to Government, Development Departments, Bangalore.

In forwarding herewith copy of representation (No.169, dated 18th September 1926) from Mr. B.G.A. Mudaliar, Industrial Engineer, requesting for the grant to him for reasons explained of a Conveyance allowance of Rs.75/-, I have the honour to state that the work in the Well Boring Section, since its transfer to this Department has forced him to incur heavy expenditure in the shape of upkeep of his motor car.

A number of boring operations were going on almost simultaneously in the various parts in the Bangalore City over long distances and he had had to inspect these very frequently, putting himself to extra and heavy expenses.

Even now his work in this direction necessitates very frequent trips to places of operations in addition to his regular duties as Superintendent, Central Industrial Art Workshops.

The Well Boring Inspector has been granted a Cycle allowance of Rs.7-8-0 per month for the period, he works in Bangalore City (Vide G.O.No. 9 c 101) - 18/9 c 53-26-2 Dasco 12-8-26

Circumstances In the circulars I would recommend that B.G.A.Mudaliar, Industrial Engineer be granted a Conveyance Allowance of Rs. 75/- a month from the Well Boring Budget grant.

I request you to kindly obtain sanction of Government to the above allowance.

"COPY"

Ramachandra Rao
for Offg. Director.

MSR.

Copy of letter No.169, D.O. dated 18th September 1926, from the Industrial Engineer, to the Director of Industries and Commerce in Mysore, Bangalore.

I have been in charge of the well-boring section since the beginning of this year. As you are already aware, almost all our well-borings have been carried out within the limits of the Bangalore Municipal Limits.

I need hardly tell you that a good lot of inspection work and advice during operation was found necessary, as practically all the operators were beginners. I have travelled all the distances, (in a day, sometimes as much as 20 miles) in my car. Naturally the up-keep of it for these months has bade a big drain on my meagre resources.

I hear that the Municipal Special Engineer, for somewhat similar travels, gets an allowance of Rs.50/-per month. I do know that certain officers in the Agricultural and Electrical Departments are given such Conveyance Allowances.

In fact, the principle has been admitted by the Government by giving a cycle allowance for similar functions to my Boring Inspector.

Further, you are aware, as Industrial Engineer, my services are requisitioned often by the Government Distillery and other Industrial Concerns, which involve considerable travel.

I may be permitted to point out that the T.A.amount for the Boring Section is practically unspent up to now, as all our operations are in Bangalore now.

Hence, I may be permitted to draw a car allowance of Rs.75/-(Seventy-five Rupees) per month from this source

source at least.

I beg of you to obtain sanction of the Government for this grant out of the T.A. amount of the Well-Boring Section. The allowance prayed for may be sanctioned from the date of the beginning of Well-Boring operations in Bangalore, as has already been sanctioned in the case of the Boring Inspector.
